Boyertown Borough Council is considering various proposals to eliminate some of the street parking in the E. Philadelphia Avenue business district, between Reading Avenue and Washington Street. These changes are being considered due to concerns about safety, and also to improve the appearance of the downtown, in conjunction with the streetscape project being undertaken in the near future. The borough would like the input of residents, business persons, and others who may be affected by changes in the parking, before implementing any changes. Your answers to the following questions would assist in determining how to manage the downtown parking to best serve the greatest number of people.
